DETAILED ACTION

The rejection of claims 1-3 and 5-9 under 35 U.S.C. 103(a) as being unpatentable over Japanese Patent abstract 4-311767 is moot in view of applicants' amendments.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Japanese Patent abstract 63-309273 (Miyahara), for reasons of record in view of Japanese Patent abstract 10-072313 (Horiike).

Miyahara is as set forth previously and teaches in the abstract the formation of a sheet comprising fibers processed with a composition comprising eggshell membrane and organic compound of the type contemplated by applicants, but does not specifically teach that the eggshell is water-soluble. Horiike teaches the formation of a sheet using water soluble eggshell, wherein said eggshell has been chemically processed as required by claims 19 and 20. It would have been obvious to modify the composition of Miyahara by using a water soluble eggshell to enhance the dispersion of the eggshell in the formation of the sheet. It should be noted that the claims do not require that the eggshell membrane completely dissolve. As to claims 14 and 15, Miyahara teaches the inclusion of components of the type contemplated by applicants.

Therefore, the combined teachings of Miyahara and Horiike would have rendered obvious the invention as claimed in present claims 1-20.

No claims are allowed.

Conclusion

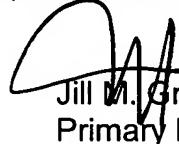

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
